Clear Grain Exchange Terms and Conditions

Clear Grain Pty Ltd trading as Clear Grain Exchange
ABN 63 615 342 026

Effective Date: 25 December 2020

Highlights¹

Clear Grain Exchange (Clear) is an electronic exchange developed to facilitate the trading of grain harvested in Australia, and intended to provide Australia-wide industry transparency. It facilitates both spot trading of physical grain and trading on a forward basis.

All industry participants (including growers, traders, brokers, agents, consultants, accumulators, speculators and end users) are eligible to become Registered Users on Clear and may create bid and offer orders for grain on behalf of themselves, or via an Authorised Representative.

Clear has engaged Perpetual Nominees Limited (**Perpetual**)² as the independent Custodian to settle all trade proceeds. Perpetual disburse the trade proceeds to the relevant parties. On request funds may be held for Registered Users in a Cash Management Account.

Clear is accessible 24 hours, 7 days a week and is open for trading between the hours of 10:00-10:05am and 8:30-8:35pm AEST time zone each Business Day. Bids and Offers entered on Clear outside these hours will be recorded, time and date stamped (in the sequence they are received by Clear) ready for matching at the commencement of business the following Business Day.

Spot Contracts

Spot Sale Contracts can be made in respect of:

- 1) **Automatic Grain:** This is grain in respect of which Clear is automatically nominated as the "client", and which is entered into the Clear system prior to an offer being made.
- 2) **Nominated Grain:** This is grain which is not in the Clear system prior to an offer being made, but for which Clear will be nominated as the "client" prior to settlement.
- 3) **Integrated Bulk Grain:** This is grain that has been deposited with an integrated storage provider, prior to an offer being made, and which does not fall under 1 or 2 above.

Warehoused grain can be automatically viewed in the inventory of a Registered User's Clear account, **except** at those Storage Providers (Bulk Handlers) that still require Registered Users to nominate Clear. For nominated grain, Clear will hold the entitlement to that grain on a bare trust so that at all times the Registered User remains the owner of the grain until full payment is received.

gTickets are issued as Clear's unique electronic identification record of warehoused grain. Registered Users or their Authorised Representatives are in control of determining when, and for how much, they wish to buy or sell their grain.

Integrated Bulk Grain stored with an Integrated Storage Provider can be offered for sale on Clear without any requirement to transfer the entitlement to Clear first. Once offered, Clear will validate the availability of the offer quantity and automatically cancel the offer in the event the offer quantity becomes unavailable. Upon trading, the Integrated Bulk Grain will be held on a bare trust so that at all times the Registered User remains the owner of the grain until full payment is received.

For nominated grain, a Registered User is free to remove their grain from Clear at any time before an offer or bid for that grain is accepted, subject to paying applicable storage and handling fees.

Forward Contracts

Growers and Buyers can use Clear to enter into forward contracts for the delivery of grain at a set time in the future. Once one party has matched the other party's offer/bid, the Buyer will have the opportunity to approve the identity of the Grower and the secondary delivery site prior to the relevant Sale Contract coming into force. For multi-grade trades, Buyers will also have the opportunity to specify a Grade Spread, which, where the Buyer has matched the Grower's offer, will need to be approved by the Grower prior to the relevant Sale Contract coming into force.

For all forward contracts a calendar month will be specified as the delivery period, and settlement must occur at the end of the delivery period. Grain must be transferred to Clear, and a g-ticket issued for that Grain, during the delivery period. Settlement and payment will occur through the Clear secure settlement process.

Track Contracts

Clear enables Sellers and Buyers to trade Track Contracts which have minimum tonnage increments of 1,000t and standardised terms including fixed grades and delivery periods. A Registered User must be approved to access Track Contracts and are required to set trading limits for other Registered Users.

A trade can only occur if it does not exceed the trading limits that the counterparties have for each other. At time of trade a Broker Contract Note is provided to counterparties however counterparties will not be disclosed at the time of trade unless a trade occurs during delivery period. Counterparties will be disclosed to each other before delivery period or at any earlier time at the absolute discretion of Clear.

Payment terms are in full against title transfer as per Grain Trade Australia (GTA) Contract No 2. It is Clear's usual practice to only settle Track Contracts where a Circle per GTA Trade Rules is considered to exist but Clear reserves its rights to settle any Track Contracts at its absolute discretion.

Contract Settlement

Clear offers a unique Contract Settlement service that protects both Sellers and Buyers of Grain. Essentially Sellers do not lose title of their grain until funds from the buyer have been secured, and Buyers do not lose title of their funds until title of grain has been secured.

Clear's Contract Settlement may be used for Sale Contracts generated within the Clear System or Third Party Contracts, including contracts for grain not stored in a bulk handling company.

In respect to this clause, a Storage Provider may Deposit Grain into the Clear System on behalf of a Registered User on receipt of a Sale Contract by Clear. Where this is the case the Registered User will be notified at the time of placing an Offer on the Clear System.
- (b) Where the terms of the Registered User's Storage Provider Agreement with the Storage Provider

automatically nominate the particular type of Grain to be Deposited into the Clear System ("Automatic Grain"), the Registered User agrees and warrants that, unless the Registered User has withdrawn or cancelled that nomination by notice in writing to the Storage Provider prior to the deposit of that Grain, depositing that Grain with that Storage Provider constitutes a direction to that Storage Provider to nominate that Automatic Grain as being Deposited into the Clear System, in which case, the Registered User warrants and represents to Clear that it has granted the Storage Provider holding the Registered User's Automatic Grain the authority to act on behalf of the Registered User to nominate the Grain as Deposited in the Clear System. The Registered User must at the time of making the deposit provide the Storage Provider with all information required by the Storage Provider (including the information required for the Storage Provider to complete the Deposit Information) and specify with the Storage Provider that the "Client" in respect of that Grain is Clear.

This clause 2.1(c) does not apply to the Deposit of Grain in respect of a Replacement gTicket under clause 13.2(c)(ii).
- (d) With respect to Nominated Grain, Clear (as nominee of the Registered User who has nominated Clear as the "Client" in accordance with clause 2.1(a)) will hold on a bare trust the Registered User's entitlement to Nominated Grain which has been deposited with the Storage Provider. Third Party Contracts or Grain that is stored outside of a bulk handling company such as on-farm).

- (b) Clear must cause the Clear System to record the Registered User as the Owner of the gTicket.

2.4. Amendment of gTickets

- (a) If a Registered User believes that the quantity or Specifications contained in a gTicket do not accurately describe the Grain Deposited, the Registered User must query the information directly with the Storage Provider. If the Storage Provider amends the quantity or Specifications in response to the query, Clear will amend the gTicket to accord with the amendments required by the Storage Provider. If the query cannot be resolved between the Registered User and the Storage Provider, the gTicket must be Released to the Registered User, in accordance with clause 14.3.

- (a) Registered Users acknowledge that Clear may amend gTickets from time to time if the Storage Provider notifies Clear of changes in the location, Specification or other details of the Grain the subject of that gTicket.
- (b) While Clear will endeavour to update each gTicket in respect of location, Specification and other details of the Grain in accordance with clause 2.5(a), if Clear is advised by the Storage Provider that the Grain has been moved or reclassified by the Storage Provider, Clear does not guarantee that the:
 - (i) Grain will be physically located at the location specified in the gTicket; or

Specification specified in the gTicket.

- (c) The Registered User acknowledges that its sole rights in respect of any changes to the location or Specification of Grain represented on a gTicket is against its Storage Provider pursuant to, and limited by, the provisions of the Registered User's Storage Provider Agreement. 2.6. Registered User's Representations and warranties

- (a) By Depositing Grain pursuant to clause 2.1 or by making an Offer in respect of Integrated Bulk Grain or Nominated Grain, the Registered User represents and warrants that:
 - (i) the Registered User has the legal and beneficial ownership of the Grain (or the right to deal with the beneficial ownership of the Grain) and that the Registered User's ownership is Unencumbered; or

 - (iii) if the Registered User does not have the legal and beneficial ownership of the Grain (or the right to deal with the beneficial ownership of the Grain), it has the requisite authority from the legal owner of the Grain and/or any third party holding an Encumbrance over the Grain to deal with the Grain in accordance with the Terms and Conditions.
